

Rocker half element with viewer for mechanisms graphite Simon 82 Centralisations

REF. 82011-68

BASIC INFORMATION

DESCRIPTION

In the series Simon 82 Centralisations, it is possible to access a wide catalogue of rockers and covers to provide service for the special control mechanisms of the brand. This is the single rocker, half element, with viewer. The product is committed to a modern and modern finished in graphite colour. Thanks to its quality materials, the rocker Simon has the best guarantees of security. It is possible to install the rocker both in surface-mounted and flush mounted, giving it to the product of enormously versatility and functionality. Also, you can find this rocker in several different finishes, as it is necessary to choose a frame Simon to accompany to this rocker, as a recommendation is to choose one with the same finish that the graphite baseboard of the rocker to be installed. It has a signaling function thanks to its viewer. It does not include any type of engraving drawn or in its design. You just need to clean the product with a soft and damp cloth.
