

Protective frame for 1 element with circular central opening white Simon 32

REF. 32912-31

BASIC INFORMATION

DESCRIPTION

The collection Simon 32 presents the frame for 1 element with opening protector control unit circular, which is available in a few simple finishes in white colour for its great versatility when it comes to combining. With dimensions of 90x90 mm and it is manufactured with baquelita, a material classic and totally safe. It can be placed both vertically and horizontally, although it is necessary to use the control unit square opening insert for the mechanisms with square rockers. And it is that the series Simon 32 part of the great classics of our brand, composed of all types of simple solutions to demonstrate that sometimes, the most safe bet is the one that you never goes out of fashion. If you do not want to complicate more, confident in the beauty only of our classic.
