

Interchangeable case for 2 elements frame cream Simon 27 Play

REF. 2700627-070

BASIC INFORMATION

DESCRIPTION

If what you are looking for a look at the classic, then the interchangeable case for frames of the Simon 27 Play series, in its finish cream, of the range Colour is excellent choice. With its colour and its classic lines help to convert the mechanisms in elements elegant within the space. Composed, in this version, two elements measures 86x164mm. It has capacity for up to four elements. Its manufacturing material is thermoplastic, bestowing upon it great resistance and hardness. It is ideal to combine with rockers and covers with a white finish, thanks to its colour cream. This model, it can be installed in frames that are mounted in surface-mounted, but also in those that are in recessed boxes universal. It can be placed both vertically and horizontally and offering therefore a great versatility in its design. For its maintenance it is only necessary to use a cloth slightly moistened in soapy water.
