

Single rocker for double-pole switch gloss white Simon 100

REF. 10000133-130

BASIC INFORMATION

DESCRIPTION

Single switch for bipolar switch made in bright white of the Simon 100 series. It has an installation that must be done horizontally and is a product that can be installed in a universal box.

To maintain the proper functioning of this product, a cloth subtly soaked in soapy water should be used, so as to avoid using any product containing chlorine in cloths and / or cleaners. The temperature for storage ranges from -25 to 75 ° C and the temperature range for optimal operation ranges from 0 to 40 ° C.

Inside the packaging is the individual switch that has been made in accordance with current regulations and can be marketed throughout the EC market. It is a quality product that has been made of plastic and has a degree of IP protection of 20, the highest possible in this type of regulation, responsible for protection against moisture and dust.
