

Pack of 4 screws for securing mechanism-holder unit IP66 stainless steel Simon K45

REF. RKS005/72

BASIC INFORMATION

DESCRIPTION

This pack of 4 screws is suitable for use in the fastening of one mechanism-holder unit IP66. They are of stainless steel and included in the series Simon K45. The screws are measures of 15 mm and has been manufactured in compliance with current regulations. It is a product designed as a replacement for the set of 4 screws that are supplied in addition to the mechanism-holder unit (do not forget that this reference does not include the mechanism-holder unit). Simon K45 is a collection that offers all kinds of solutions for electrical, voice, data and multimedia. Mini-towers, mini-columns, columns, mechanism-holder units and other products have been designed to facilitate connectivity in offices, public spaces and, in general, in the work stations. With regard to maintenance of these screws, it is advisable to them with a soft and dry cloth and to avoid those cleaners that contain chlorine.

FINISH

Stainless steel

PACKAGING CONTENTS

Pack of 4 screws for securing stainless steel IP66 mechanism-holder unit

ETIM CLASS

EC002420

MATERIAL

Metal
