Blind cover for 1 element white Simon K45

REF. **K17/9**

BASIC INFORMATION

DESCRIPTION

The halogen-free thermoplastic is the material chosen for the manufacture of this blind cover for 1 element finished in white colour of the series Simon K45, this material provides an extra security to the installation as to prevent the propagation of the flame in case of fire and guarantees a low toxicity in case of smoke, it is also very resistant to temperature changes and knocks derived from use. It is a cover in its individual version half element suitable for surface-mounted and recess. It has dimensions of 45 x 45 x 8.5 millimetres. Its maintenance is very simple, only we'll need a soft and dry cloth to keep it as the first day. When talking about the series K 45 of Simon we highlight its great versatility conectiva with a maximum compatibility with all the connectors on the market, a series designed for its perfect integration in work spaces or public places.
