Enter/wait switch for half element white Simon 27 Play

REF. **27805-64**

BASIC INFORMATION

DESCRIPTION

It is a switch with function walk-stop, half element with white finish belonging to the Simon 27 Play series, operates using a power of 250V~ and it is manufactured with metal elements that are presented with halogen-free insulation and thermoplastic trim in full compliance with the current regulation. It has a size of 22.5x45 mm and is characterized by an extraordinary resistance to extreme temperatures. However, it is recommended that the switch is installed in environments with a temperature range between 0 and 40ºC to keep it in ideal conditions. As for its maintenance, you can clean it with a soft and dry cloth, avoiding the use of abrasive products containing chlorine among its components. The Simon 27 Play series is a collection colorful and customizable, thanks to its frames in multiple finishes and rockers and its interchangeable sleeves.
