

**Cover with safety device for 2-pole socket outlet white
Simon 88**

REF. 88040-60

BASIC INFORMATION

DESCRIPTION

Cover with safety device for two-pole socket-outlet finished in white colour (even if it is available in 3 different finishes) of the signature Simon 88. Its diameter is 68.3 mm and is made of thermoset, a material that is that it has a very simple maintenance, as only vas to need to use a soft cloth slightly moistened in soapy water, without resorting never with abrasive cleaners and / or cloths containing chlorine in its formulation, as they could cause the cover is damaged and not worked correctly. It can be installed perfectly in rooms with a temperature of between 5 and 40°C, although it can withstand extreme temperatures of -25 to 50°C, approximately. Simon 88 is a series that has numerous electronic functions such as, for example, adjustment and lighting control, centralisation of blinds, signaling and beacon/beacons, in addition to timing and clocks. It stands out for break with square forms and for its finishes in pure precious.
