

Frame for 1 element metallic blue interior graphite Simon 82

REF. 82814-64

BASIC INFORMATION

DESCRIPTION

Included in the Simon 82 series, this frame stands out for an element of the metallised blue range indoor and finished in graphite. As far as the installation is concerned, now with the compatibility between the Simon 82 series and the mechanisms of the Simon 77 series, you simply have to insert and press to leave the element completely installed in the favourite corner of your home, this way you can take advantage of the most innovative functions in electrical systems. Control the functions of the different components of your home by following a cutting-edge design line. It is highly recommended to make the most of the lines designed by Simon collection that the finish is graphite for rockers and covers. Among the countless avant-garde finishes available in the Simon 82 series you can find the finishes organized in four families and this frame can be found in the ""metal colour"" of the category ""frames"".
