Metal tray for adjustable floor box for 12 elements for installation in concrete floor Simon 500 Cima

REF. **52052206-033**

BASIC INFORMATION

DESCRIPTION

It is a metal tray suitable for floor box of 12 elements, the piece is specially designed for installation in concrete floors. It has finished in aluminium, although the main material is stainless steel. It also contains metal components with trunking inlet access that have been made of halogen-free, self-extinguishing thermoplastic, a material very safe in case of fire, as it avoids the no-propagation of the flame. The metal tray has dimensions of 463x463x75 mm and complies with regulations. It is possible to combine this product with a concrete floor box for 12 elements finished in grey or graphite for an optimal result. The piece is included in the Simon 500 Cima series, a collection that focuses on connectivity through its varied mechanisms and kits.

FINISH

Aluminium

MATERIAL

Steel

PACKAGING CONTENTS

Tray, protective cover, floor fixing screws and installation manual

ETIM CLASS

EC000114
