

Back kit for 2 elements with 2 intermediate switches Simon 100

REF. 10010104-039

BASIC INFORMATION

DESCRIPTION

Practical / practical rear kit for an element with 2 pulsating crosses from the Simon 100 range. This kit allows us an easy installation with a click connection system (1 click ®), which will save time and avoid errors when connecting with maximum security. Supports 10 AX / 250V ~ power and correct operation in a temperature range of 5 to 40 ° C and maximum temperatures of -25 to 50 ° C. Featuring a design suitable for flush mounting, this Simon 100 range kit offers a quality solution that satisfies consumers. The most demanding electrical mechanisms, as well as the other components, are made with high resistance materials that guarantee a long service life of the product. The kits supplied by the Simon company guarantee you the best connections for your electrical installation and provide safe and easy to use components at the best prices on the market.
