

Thermoplastic frame for 1 element brown Simon 31

REF. 31610-32

BASIC INFORMATION

DESCRIPTION

This model of the Simon 31 series with its functional design, in its finish brown adapts to any space in which you want to install. Its simple lines, but with style, are a heat to the place. The manufacturing material is thermoplastic, which is a great resistance to the design. The installation can be perform vertically and horizontally, to demonstrate great adaptability to the space. It is recommended the use rockers and covers in a brown finish, completing the design. It measures 80x80 mm, with capacity for up to four elements, the model in question is made up of one single. For your care only, it is necessary to use a soft and dry cloth, without cleaners that may damage the material.
