

Cover for wire outlet pull mechanisms champagne Simon 82

REF. 82051-34

BASIC INFORMATION

DESCRIPTION

Security and functionality are two qualities present in all products included in the Simon 82 range. This is the great difference in comparison with similar products manufactured by competitors that are sold on the market, which cannot be close to the great relationship between quality and price offered by this range. The Cover for cable outlet puller mechanisms in champagne -mecanismos of the Simon 82 series combines the most innovative design with the simplicity in a single piece that has been made with the best materials of galvanized thermoplastic. With dimensions of 55x55 mm, this cover is available in six different finishes, so it is impossible not to find the colour we need in our electrical systems, in addition, it is a cover that can be mounted on the mechanisms included in the Simon 75,82 and 88 series.

FINISH

Champagne

MATERIAL

Plastic

PACKAGING CONTENTS

Cover

SYMBOL

Without engravings

COMPATIBILITY

Simon 75 mechanisms

ETIM CLASS

EC000011
