

Voice and data flat plate with dust cover for 1 element and 1 RJ45 connector category 6 UTP black Simon K45

REF. KA96U/14

BASIC INFORMATION

DESCRIPTION

With a grey finish in black colour, you will find this plate of voice and data flat plate of the series Simon K45. It incorporates a dust shutter of an element and with an RJ45 connector category 6 UTP. It is made of metal materials, thermoplastically isolated, to guarantee the security, even at high temperatures. This plate is part of the individual version, with four modules. To connect the plate is required, the insertion tool. It is available, in addition, for one or two RJ45 connectors. Angled voice and data plates, of the series Simon K45, can be installed on poles enclosures. To achieve an optimal installation, it is necessary to use the 90 ° positioner (ref. K66). Thanks to its compact dimensions (45x45 mm and a depth of 30 mm) are perfect for installation in all types of public places, such as companies, offices, hotels, etc. It can be recessed or position, place onto flat surfaces. The maintenance of the Simon K45 voice and data plates is very basic. All it takes is a soft dry cloth to wipe them clean.
