

Thermostable frame for 2 elements champagne Simon 31

REF. 31621-34

BASIC INFORMATION

DESCRIPTION

Frame with champagne finish to fit 2 elements. It is made of metallized thermoplastic, a highly resistant material capable of withstanding extreme temperatures. For optimum preservation of this article, however, the ideal thing is to install it in environments where the temperature is between 22 and 40°C. The frame complies with the regulation and, in addition, it can be installed both horizontally and vertically. Its measures are 157x87 mm A it comes combined with rockers and covers, it is recommended that these also have champagne finish to obtain a more satisfying effect. The article is included in the serie Simon 31, a collection with personality and equipped with mechanisms of simple lines and timeless that can be adapted to any project. For the maintenance of the frame, it will be enough to clean with a soft, dry cloth and avoid abrasive cleaning products that contain chlorine and may impair.
