Blind cover for 2 elements graphite Simon 500 Cima

REF. **50000800-038**

BASIC INFORMATION

DESCRIPTION

The Simon 500 Cima series has between its articles more highlights the blind Cover for two elements in graphite colour, a product that optionally you can screw the centre frames in the box in case you need an extra fastening. The dimensions of this element of protection for electrical and electronic systems are 100 x 50 x 11 mm, so that it is a cover perfect to be installed both in all types of buildings. The halogen-free thermoplastic of its structure guarantees no flame propagation in case of fire and the low toxicity in case of smoke. Moreover, its low price makes it a perfect element to perform installations with all kinds of budgets, being suitable for surface-mounted or recess. These are some of the features that have made Simon the leader in the industry in the creation of products and accessories.
