

Double rocker for blinds mechanism with security latching grey Simon 75

REF. 75028-35

BASIC INFORMATION

DESCRIPTION

The protection of electrical and electronic systems is the raison d'être of the Simon 75 series, which offers a wide range of options suitable for any decorative space and installation. With raised and lowered engraving, this range includes the double Rocker for roller shutter mechanism with latching of security in grey of the Simon 75 series, its resistance to knocks and high temperatures make it the perfect piece for space with a high influx of people such as commercial establishments or large offices buildings, like the rest of the rockers included in this series, the thermoset components with which it has been manufactured are safe in terms of durability over time, another of its advantages is its easy installation both in surface-mounted and recessed in the wall, all this with the most competitive price possible.

FINISH

Grey

MATERIAL

Thermosettable

PACKAGING CONTENTS

Double rocker and fastening bracket

SYMBOL

Blinds Up-Down
