Enter/wait switch white Simon 27 Play

REF. **27805-65**

BASIC INFORMATION

DESCRIPTION

Switch with "pass-wait" function in white finish, ideal for public spaces such as health centres. This is an accessibility indicator that can be easily activated by a push-button switch. With two modules, it is included in the Simon 27 Play series, it is suitable for surface and flush mounting and consists of metal parts with halogen-free insulation, ensuring maximum security at all times to individuals. The trim is made of thermoplastic, a material that stands out for its hardness. It measures 45x45 mm and can be installed in all kinds of environments, as it is a very resistant mechanism to extreme temperatures. To clean it, you can use a soft and dry cloth, although it is not recommended to use abrasive cleaners that contain chlorine, the Simon 27 Play collection is designed to redecorate all kinds of spaces through its mechanisms, available in multiple colours and finishes and equipped with innovative electronic functions.
