

Cover with safety device for French socket outlet graphite Simon 75

REF. 75068-68

BASIC INFORMATION

DESCRIPTION

Cover with safety device for French socket outlet, finished in graphite colour of the Simon 75 series. This cover with 1 element and is suitable for both surface-mounted and to be recessed and can be installed in rooms with a temperature of between 5 and 40°C, although it can withstand extreme temperatures of between -25 to 50°C, approximately. Complies with the regulation IEC 60884-1: 2002, and is made of thermoplastic, a material that is very easy to clean because only has to need to use a soft cloth slightly moistened in soapy water for the cover that is always in perfect condition, not having to use never abrasive cloths or cleaners containing chlorine. The Simon 75 series offers infinite combinations of colour and also an incredible game of shapes. It also stands out for being compatible with the mechanisms of the Simon 77 series, which allows you to connect the cables without that you have the need for stripping or braiding them.
