

Adjustable T connector with RH outside earth

REF. 89940830-039

BASIC INFORMATION

DESCRIPTION

How can we achieve a control effective on the electrical systems of indoor lighting? What is the key that will allow us to increase the functionality and possibilities of the same? The response is simple: Simon. Thanks to its products and accessories obtendremos appropriate light in all types of situation and in all types of spaces, regardless of its dimensions. To do this, Simon has the T with LH outdoor right adjustable white in colour, an element for installation on 3-phase rail. Its great value for money, you best in the market today, is unrivalled from other similar products manufactured by the competition. In terms of its structure, this will prevent its oxidation in environments with high temperatures and humidity, besides being perfect to avoid its deterioration in the knocks, impacts normal that are produced by the daily use of electrical installations.
