

Plate for telephone sockets with RJ11 and RJ12 connectors aluminium Simon 82

REF. 82062-63

BASIC INFORMATION

DESCRIPTION

In both private homes as well as in company departments, incorrect installation of the elements that make up telephone systems can have negative consequences when carrying out a communication. How can we avoid such incidents? The response is with the Plate for telephone sockets with RJ11 and RJ12 connectors in aluminium of the Simon 82 series, manufactured with galvanized thermoplastic composite materials, it is a 55x55 plate that will keep our communications safe, being suitable for surface and flush mounting, another of its advantages is that it is available in six finishes, so it is recommended to choose a frame with the same baseboard colour as the selected rocker. It must be cleaned with a soft cloth slightly moistened in soapy water, not needing any further maintenance to maintain its appearance as the first day.
