

Plate for telephone sockets with RJ11 and RJ12 connectors grey Simon 75

REF. 75062-35

BASIC INFORMATION

DESCRIPTION

We all know what it means to spend a day without a phone or Internet. To avoid these inconveniences we can rely on the Plate for telephone sockets with RJ11 and RJ12 connectors in grey of the Simon 75 series, thanks to which we will never again have problems in our connections through the telephone network. It is a valid plate for telephone tapping mechanisms of four and six pins that will keep our communications safe, being suitable for surface and flush mounting. It does not need more than a damp cloth for maintenance to make it look like the first day, it is also available in six finishes and has been manufactured with thermoplastic materials, which increases its strength and durability. All the mechanisms of the Simon 75 series support the appearance of the Simon 82 range.

FINISH

Grey
