

Input for mono speaker, complies with standard DIN 41529 champagne Simon 31

REF. 31400-34

BASIC INFORMATION

DESCRIPTION

The Simon 31 series has wide product catalogue specialised in sound. This is the specific for mono speaker input, according to DIN 41529 rule, in a stylish finished in champagne colour. Its clamping is by means of a faston / welding terminal connection and works by insertion. This is the individual version of the speaker jack Simon and has only one element. Does not include signaling function or any kind of engraving on the cover, it should be noted that withstands temperatures very variables, since it can oscillate between -20 and the + 50 degrees centigrade. This is due to the highest quality materials with which it has been manufactured. Are electronic components isolated without halogens and the trim is created in metallised thermoplastic. This speaker jack is exact dimensions of 64 x 65 millimetres and does not require much maintenance, it is advisable to perform the cleaning with a soft cloth, moistened in water with soap, avoiding neutral resorting to aggressive cleaning products, which are wealthy in chlorine or other chemical.
