Cover for 1 gloss black USB connector Simon 100

REF. **10001091-138**

BASIC INFORMATION

DESCRIPTION

Black cover, and for 1 USB connector of the Simon 100 series, a series born to simplify people's lives. The main feature of the Simon 100 series is user friendliness, as it is designed to facilitate interaction with users. It is a revolutionary line in this sense, appearance and technical innovation. It has a half element and is a cover suitable for flush mounting on surfaces with a temperature between 0 and 40 &#65533; C, although it can reach the desired position, in places where the temperature is between -25 and 75 &#65533; C, approximately. Complies with European standard EN 50581: 2012 and the socket is made of thermoplastic based PMMA, a material very easy to maintain because you just need to wipe it with a soft cloth slightly dampened with soapy water, without having to reach the remedy rags or abrasive cleaners containing chlorine in its formula.

FINISH

Gloss black

COMPATIBILITY

Mechanisms Simon 100
