

Double rocker for blinds mechanism without security latching white Simon 88

REF. 88029-30

BASIC INFORMATION

DESCRIPTION

Belonging to the Simon 88 series, this double rocker is designed for roller shutter mechanism and does not have latching of security. It is finished in white and is made of thermoset plastic, a material known for its robustness and resistance against knocks and also against extreme temperatures. If you want the item to be kept in perfect condition for longer, instálelo in environments between 5 and 40°C temperature. Just as important is its maintenance, use a soft cloth slightly moistened in soapy water and rub the rocker with it, avoid, also, abrasive cleaners that present chlorine among its components. This double rocker is available in 3 finishes. The Simon 88 series breaks with the shapes preconceived and commitment mechanisms of circular appearance that provide personality to rooms where they are installed.
