Modular signal socket R / TV + SAT intermediate and RJ45 voice and data category 6 UTP Simon 100

REF. **10000471-039**

BASIC INFORMATION

DESCRIPTION

Modular signal socket for UTP RJ45 category 6 R-TV + intermediate SAT for data and data belonging to the Simon 100 series. Discover with the Simon 100 collection a new way of interacting designed to facilitate the interaction of people with it . This is the reason why it is the most comfortable and the most intuitive in terms of use. It is screwed on and is suitable for flush mounting. The Simon 100 series was created to make the most of all of its elements. It also has different aesthetic characteristics: Minimum, matrix and vertical. Its components and elements are made with the highest quality and its appearance is the most stylish. It features distinguished colors and subtle finishes, but it's perfect for admiring the installation and feel of its components. Appearance has only one goal: combine functionality and appearance to create a product that can be used with your eyes closed and that takes advantage of kits created to meet the needs of every corner of your home.
