

Frame round for 3 elements steel Simon 88

REF. 88630-35

BASIC INFORMATION

DESCRIPTION

Circular frame suitable for 3 elements finished in stainless steel. It is part of the series Simon 88 and is suitable for surface and flush mounting. It measures 100x242 mm and is manufactured in thermoplastic (the base) and in Zamak (the frame). These materials are characterized by being highly resistant and, in fact, the article can withstand extreme temperatures. However, it is best to place it in spaces with a temperature of between 5 and 40°C. Also, the frame can be installed both vertically and horizontally. To achieve an optimal effect, remember to combine it with rockers and covers with finished in stainless steel. With regard to its maintenance, you can use a cloth slightly moistened in soapy water and to avoid those cleaners that contain chlorine. The collection Simon 88 is designed to highlight and energize spaces. An example is this frame circular, capable of attract all the glances at the same time as challenge conventional designs.
