Single TV socket for half element ivory Simon 27 Play

REF. **27475-31**

BASIC INFORMATION

DESCRIPTION

Single TV socket, half element, with finished in ivory colour of the Simon 27 Play series, this element includes a welded terminal connection and a type of operation is by insertion. The connection for the TV socket is made by welding. As far as the installation is concerned, the element is suitable for surface mounting or flush mounting. The manufacture of the element is made of metal components with halogen-free insulation and thermoplastic trim. Benefit from all the specifications of the Simon 27 Play series, its customization brought to the maximum exponent, with the option of including the image you like the most in the sleeves or transparent rockers. It also combines covers and rockers in 4 ranges: Extreme, metal, colour and arctic. To add different solutions to all types of environments Simon 27 Play offers you the possibility to include antibacterial or IP 44 sealing for protection against bacteria, dust and water.
