

Single rocker for blinds mechanism with 3 positions (up, down and stop) brown Simon 88

REF. 88033-32

BASIC INFORMATION

DESCRIPTION

Simon is characterized by offering solutions for all types of environments, an example of this is the centralization of blinds. Thanks to this single rocker for bind mechanism with 3 positions (up, down and stop) brown of the Simon 88 series, you can efficiently control, and without effort, the blinds in your home or workplace. A product of great quality because it is made of thermoset, giving it the resistance and durability needed to remain as the first day after the passage of the years. When talking about the Simon 88 series we highlight its design circular and its finishes in pure precious, a series designed to highlight wherever it is installed. The dimensions of this rocker for blinds are 68.3 millimetres, is suitable for 1 element and can be found in its single version. Being compatible with the Simon 77 mechanisms allows for a long time in your installation.
