

Trim frame for 2 elements copper Simon 27

REF. 27964-32

BASIC INFORMATION

DESCRIPTION

Simon stands out for his great experience and long trajectory in marketing and selling all kinds of accessories and mechanisms for the installation of electrical systems in private homes, companies and commercial establishments. Simplicity and elegance are two adjectives that perfectly define the elements for electrical systems included in the Simon 27 series. In this range we find the Trim frame for two elements in copper, a piece made with the best materials with components of galvanized thermoplastic, its installation, which can be carried out in minutes without the need for tools, can be flush-mounted in a universal box, the dimensions of this frame, which consists of four modules, are 161x90 mm, allowing two addresses of assembly, depending on whether the plate is placed horizontally or vertically.
