Double rocker with viewer for switches aluminium Simon 82

REF. **82025-33**

BASIC INFORMATION

DESCRIPTION

In many cases, the rooms and rooms of homes and businesses have several lighting areas. The most efficient energy and economic solution in these cases is to have a switch with two push buttons that allow us to only turn on or off the area that interests us at all times, one of the best-selling products for this type of electrical installation is the double Rocker with sight glass for control mechanisms in aluminium of the series Simon 82. This piece, which measures 55x55 mm, is available in six finishes and is suitable for surface and flush mounting. It also stands out for its simple and functional design, as well as for its value for money, which stands out from the competition on the market today. Manufactured in galvanized thermoplastic materials, this 2-way switch, with indicator light, is suitable for all environments and temperatures.

FINISH

Aluminium
