Pivoting plate with light beam orientation for courtesy light champagne Simon 82

REF. **82036-34**

BASIC INFORMATION

DESCRIPTION

The Simon 82 series is a new collection that is characterized by its noble and avant-garde finishes organized in four families as noble metal, wood, metal, colour and colour. They also feature minimalist designs and a wide range of textures that you can combine to your liking to create an ideal set for your home where you can install it with great ease since most of its electrical elements are suitable for flush mounting and surface mounting. On this occasion, the Simon 82 series offers us a tilting plate with light beam orientation for the courtesy beacon with a champagne finish, measures 55x55 mm and its manufacturing material is galvanized thermoplastic with an average temperature range between 5 and 40ºC, the plate is available in six finishes, we recommend you to choose the frame with the same baseboard colour as the selected rocker
