

Diffuser cover translucent for signal light Simon 28

REF. 28065-31

BASIC INFORMATION

DESCRIPTION

If you are looking for the highest quality at the best price is in the appropriate site. Here you will be able to buy the Cover diffusive translucent cover for luminous signalling included in the wide catalogue of the series Simon 28, a product that you decepcionará. This is the most demanded elements for electrical systems in this range thanks to the crowd of features. This diffuser cover is available in three finishes and has been manufactured with thermoset materials with components of the first that enable a high degree of resistance to all kinds of impacts or knocks, as well as the deterioration of the passage of time and oxidation that may occur due to the temperature and humidity of the rooms. Also, this diffusive plate stands out for its design of purely neutral lines that matches all types of modern environments.

FINISH
