

Single rocker for switches with pilot light aluminium Simon 75

REF. 75012-33

BASIC INFORMATION

DESCRIPTION

This is an individual rocker for control mechanisms with pilot light, which is included in the Simon 75 collection, the piece is matt aluminium colour and is manufactured in thermoplastic, it comes in packs of one unit and is also available in 6 different finishes to suit the tastes and preferences of all users. The article is prepared to be recessed in order to facilitate its installation, although the rocker can withstand extreme temperatures, it is ideal to place it in an environment whose temperatures range between 5 and 40°. The product is manufactured in compliance with the current regulation and does not include any engraving, the Simon 75 series offers a wide range of products suitable for all environments. To ensure correct cleaning of the rocker, it is best to use a soft cloth that has been moistened in soapy water.
