

Intermediate piece for 4 half elements (2 elements) ivory Simon 27

REF. 27910-34

BASIC INFORMATION

DESCRIPTION

Optimal middle piece for four half elements (two complete elements, separated by the piece) finished in ivory colour, the Simon 27 series, this is the version of four modules. The installation is carried out by means of the technical flush-mounted, without any difficulty. Variables, it can withstand temperatures of between -25 to + 50 degrees centigrade. The material of manufacture is a derived from the plastic, insulating thermoplastically, to limit the smoke toxic and prevent the propagation of fires. The ivory colour finish of the piece, it is a perfect integration with the frames, the rockers and covers Simon in this or other shades. Also, it can be installed both vertically and horizontally. It is important to be clear that the maintenance of these products of the Simon 27 series is very simple: You just need to avoid the use of abrasive cleaning products that contain corrosive, chemical, simply use a cloth moistened in water and soap.
