Plate for electronic mechanisms white Simon 82

REF. **82080-30**

BASIC INFORMATION

DESCRIPTION

The Plate for electronic devices in white included in the Simon 82 series and is available in six finishes, which allows you to choose the frame with the same baseboard colour as the selected rocker. It has dimensions of 55x55 mm which are perfect for easy installation on the surface-mounted or recess in a wall. The resistance is another of its main features, having a minimum and maximum temperature range of -25 ºC to 50 º C, respectively, although the recommended range is 5º to 40º C. It should be cleaned with a soft cloth slightly moistened in soapy water. This is a plate developed with top-quality thermoplastic materials, which translates into a long life span for many years. It also complies with the regulation UNE-EN 60669-1: 2002 + A1: 2003 + A2: 2009 standards, which means that it is one of the most complete plates on the market today.
