

Frame for 1 element white Simon 28

REF. 28610-30

BASIC INFORMATION

DESCRIPTION

This frame of the range Simon 28 is the perfect product to any mechanism or electrical system of the home, office or premises. Specifically, this model is designed for sockets that supply energy to an element or associated and comes in a white classic colour, which allows you to that combines with the decoration of any space in which it is placed. It is recommended to use the white finish for rockers and covers. Its installation is very simple and offers the possibility of done directly on the surface-mounted wall or by recessing. It can also be position, place in both horizontally and vertically. It measures 86 x 86 millimetres, and 12.8 millimetres of depth. It stands out for its manufacturing material thermostable, which extends the service life of the product and allows it to withstand both low and high temperatures without interfering with its operation, so that it is undoubtedly a clear commitment to the security.
