

Intermediate piece for 1 element mint Simon 75

REF. 75913-39

BASIC INFORMATION

DESCRIPTION

When we talk about the Simon 75 series, we talk about multiple colour combinations. In this series we can find frames in 13 finishes, rockers in 6 colors and the parts pieces have to be able to create 15 different colours, making an infinite number of combinations, a series designed to be used in all types of spaces thanks to its versatility rendering. The frame has a rectangular design that allows us to place it both vertically and horizontally. This is an intermediate piece for 1 element of the Simon 75 series, thanks to its resistance thermoplastic is the material chosen for its manufacture, it has a finished in mint colour. It is suitable both for surface and flush mounting. All products of the Simon 75 series are compatible with the mechanisms of the Simon 77 series, which allows us to its installation, without the need for stripping cables or use additional tools.

FINISH
