# Cover with viewer for mechanical or electronic card switch graphite Simon 82

REF. **82078-68**

## BASIC INFORMATION

### DESCRIPTION

Many companies choose the filing system to control employees' access to the different stays that make up their companies or to verify the exit and entry times of their workers to complete their working hours. The hotels also use this procedure for lighting systems in their rooms. For this reason, many entrepreneurs have already relied on the cover with viewer for mechanical or electronic card switch of the Simon 82 series, it can be installed by surface or flush mounting and is available in 6 finishes, so it is recommended to choose a frame with the same baseboard colour as the selected rocker. Its individual version has dimensions of 55x55 mm and has been manufactured with thermoplastic materials. Its low price is another of its advantages, together with a simple and functional design that makes it one of the covers with viewer for best-selling switch.
