

Plate for telephone sockets with RJ11 and RJ12 connectors graphite Simon 88

REF. 88062-38

BASIC INFORMATION

DESCRIPTION

If you are looking for a plate for telephone sockets of great quality and with a very competitive price, Simon offers you this plate with RJ11 and RJ12 connectors of the series Simon 88. This piece has a graphite finish, but we can also find it in white, brown, being able to choose the colour that best suits each space. This is an individual version for one element with a measure of 68,3 millimetres. Being made of thermoset, this plate has a high resistance to impact, to extreme temperatures and to the solvents. For a perfect maintenance we must avoid the use of abrasive products containing chlorine. Simon 88 series is characterized by its innovative and daring alternatives shapes circular, breaking with the classic lines square. This is a series designed for the most daring, with pure lines, perfect to be and highlight in any space.
