

2xUSB 2.0 connectors type A Simon 100

REF. 10000562-039

BASIC INFORMATION

DESCRIPTION

2xUSB 2.0 type A connectors, from the Simon 100 series. The connector works by insertion and its type of fixing is screwed. To install it correctly, it is necessary to fold it back into the wall. Commitment to USB format and everything is dual version in one piece. The material of manufacture of this dual USB connector for Simon is focused on metallic components, thermoplastically insulated and free of any type of halogen. This type of material recommended by safety, because they withstand very variable temperatures (from -25 °C to + 50 degrees centigrade). Additionally, eliminate the possibility of flame spread in fire management and minimize toxicity in smoke situations. The product has two Type A USB 2.0 connectors. The cover required to achieve a perfect appearance is one of Simon's covers. Just take a look at the Simon 100 Series Lid Catalog and choose the one that best suits the needs of the user in question. The possibilities are enormous. "

PACKAGING CONTENTS

2 USB connectors

ETIM CLASS

EC000018
