Flat voice and data plate with dust cover for 2 AMP® RJ45 connectors ivory Simon 27 Play

REF. **27486-32**

BASIC INFORMATION

DESCRIPTION

The flat voice and data plate with dust cover for ivory in colour from the Simon 27 Play series is one of the most demanded by professionals and individuals. It is a plate made for two RJ-45 format connectors. It is also compatible with AMP connectors measuring 45x45 mm, being suitable for surface and flush mounting. Available in three finishes, so it is recommended to choose the frame with the same baseboard colour as the rocker selected, another of its advantages is its easy cleaning and maintenance, which can be carried out with a soft and dry cloth to not affect the thermoplastic materials with which it has been manufactured. Thanks to these components the resistance is another of the great features of this plate. All these qualities can be enjoyed for the most competitive price you can find today.
