

Single rocker with bell symbol for push button brown

Simon 88

REF. 88017-32

BASIC INFORMATION

DESCRIPTION

In everything related to the design, have a wide range of ofertas that will allow us to be able to choose the one that best suits you to our needs is a great advantage compared to the competition. This feature is present in the Simon 88 series. One of the best-selling items in this range for installation in electrical systems is the individual Rocker with bell symbol for push-button switch brown in colour. The qualities of this piece, whose dimensions are Ø 68.3 mm, make it very resistant and durable to the effects typical of the passage of time, its structure has been manufactured with thermoset components. This rocker includes bell engraving with a design that highlight its avant-garde. With this rocker we will be able to give a precise answer to the demands of each situation, which offers numerous solutions that provide security to the electrical installations.
