

Wide wire outlet with cable tie Simon 100

REF. 10002801-039

BASIC INFORMATION

DESCRIPTION

Wide cable mechanisms, with cable tie fixing. It is part of the Simon 100 series, has a voltage of around 400 V and functions in the same way as the keys. This cable is screwed and its installation is recessed. The product is compatible with Simon 100 series frames, it is made of metal components with halogen-free thermoplastic insulation. This means that safety when using them is more than guaranteed, as it provides a seal and prevents the spread of flame in the event of a fire. In addition, this type of material is of the highest quality, since in the case of any smoke the toxicity is minimal. For this addition, very varied support temperatures (from -25 to + 50 degrees centigrade). This is the individual version for half element, which is 100% compatible with the frames of the Simon 100 series. The supporting wire is between 1.5 and 2.5 millimeters.
