

Trim frame for 2 elements pink Simon 27

REF. 27959-32

BASIC INFORMATION

DESCRIPTION

Pink in colour, this trim frame for 1-element mechanisms is in the Simon 27 series, it is a piece of simple and neutral lines, although, due to its finish, it gives that note of colour to any ambience. Sometimes, it is not necessary to invest too much effort in redecorating a space and it is enough to include mechanisms such as those proposed by this collection. The series stands out for its functional designs, suitable for all types of environments. This trim frame measures 161x90 mm and is made of thermoplastic, a highly resistant material, both to extreme temperatures and to the knocks and friction. It is suitable to be recessed and can be installed horizontally and vertically, according to the user's taste. It is a product that complies with the regulation and that does not require much care for maintenance, a soft, damp cloth will be sufficient for cleaning.

FINISH

Pink
