

Push-button switch with bell symbol 10A 250V~ and screw terminal connection system white Simon 32

REF. 32650-35

BASIC INFORMATION

DESCRIPTION

This push-button switch 10A 250V~ is finished in white and includes a small bell symbol. With screw terminal connection, the article is part of the series Simon 32. This collection stands out for the simplicity and reliability of its mechanisms. The simplicity of its shapes makes that adapt perfectly to all the installations, provided the purpose for which was designed. This push-button switch has a rocker operation. The manufacturer recommends using the additional square central opening for frames with circular central opening. In relation to the maintenance of this push-button switch, it is advisable to clean it with a soft and dry cloth, it is also necessary to avoid abrasive cleaning products containing chlorine, as they could damage the mechanism. The series Simon 32 is committed to the classic and sober, without losing sight of functionality. Its parts are designed to any environment, integrating perfectly into it.
