

Thermostable frame for 3 elements white Simon 31

REF. 31631-30

BASIC INFORMATION

DESCRIPTION

It is a frame finished in white for 3 elements, made of thermoset plastic, the article is included in the serie Simon 31. This material is characterized by its thermal resistance and also against knocks and scratches. However, for a better conservation of the frame, it is advisable that the environment in which they go to be installed to enjoy a temperature of between 27 and 40°C. It is also advisable to use the white finish for rockers and covers to be combined with the frame. This, the result will be much more satisfying. When it comes to maintenance, the article does not require much care, although you can use a soft, damp cloth and give light passes. Avoid abrasive cleaners containing chlorine. The Simon 31 series is a highly reliable collection with simple lines that fits perfectly into any ambience.
