

Thermostable frame for 4 elements white Simon 31

REF. 31641-30

BASIC INFORMATION

DESCRIPTION

Thermostable frame of the Simon 31 series. This frame is ideal for four elements and commitment to a simple and versatile finished in white colour, it is advisable to use more frames and covers in white finish, although the reality is that the combinations are variables. It can withstand temperature intervals high, ranging from -25 to the + 50 degrees centigrade of heat. The material of manufacture is a fully thermostable, is a very functional and high security, as it gives a high resistance to high temperatures. It possible, prevent the propagation of the fire if there is a heating end. It is available with capacities variables (one to four elements). The exact dimensions of the frames of the Simon 31 series are 299 x 87 millimetres and can be installed both horizontally and vertically, by betting provided by the maximum functionality of use. To increase the service life of the Simon 31 frames, it is recommended to them always with soap and water, avoiding the use of aggressive cleaners that contain chlorine.
