Plate for telephone sockets with RJ11 and RJ12 connectors white Simon 27 Scudo

REF. **2705062-030**

BASIC INFORMATION

DESCRIPTION

This rocker is designed for telephone sockets with RJ11 and RJ12 connectors and is of the Simon 27 Scudo series. Always looking for the total integration of the product in the predominant appearance of the room of the home, office or place where it is located, the rocker is presented in a classic colour white. Even so, this product is available in a total of two finishes, so it is recommended to choose a frame compatible with the same colour as the rocker. Its installation is extremely simple and is carried out by means of recessed. It is a highly versatile product, which also offers the possibility to be placed vertically or horizontally. The material of which it is made of thermoplastic ensures a long service life and great resistance to high and low temperatures and knocks or scratches, which gives it security at the same time. Its maintenance is very simple and is carried out using a cloth moistened in water and soap. Do not use any type of product chemical.
