Voice and data flat plate with dust cover for 1 element for 2 Infra+® RJ45 connectors white Simon K45

REF. **KB75/9**

BASIC INFORMATION

DESCRIPTION

If you are looking for speed data transmission, the plate of voice and data flat plate with dust cover with 1 element and 2 RJ45 Infra +, is the solution within the Simon K45 Collection. With the simplicity and elegance that gives its finish in Graphite, the flat base plate of K45, it is suitable for installation on the surface-mounted or recessed, with direct snap-fit both vertically and horizontally, adapting to the specific needs of each room. With an optimal bending radius not only guarantees a high speed data transmission, but also, integrates seamlessly into the set in a reduced space. Manufactured in self-extinguishing halogen-free thermoplastic, the flat base plate of voice and data K45 prevents the smoke and flame spread in case of fire. Simon K45 for flat voice and data plates, is security, innovation and functionality in a single space

FINISH

White
